LANGUAGES

Italian: Native (C2)
English: Intermediate (B2)

TECHNOLOGIES & SKILLS

Solidity | React | JavaScript | TypeScript | Node.js | Express | Hardhat | Python | Git | Problem Solving | Teamwork | Adaptability

EDUCATION

Master's in Blockchain Development
Start2Impact University | October 2023 - June 2024

University
Computer Science (Incomplete Course) | October 2020 - September 2021

High School Diploma
Computer Science | September 2012 - June 2017

PROFESSIONAL EXPERIENCE

2024 - 2025 Associate Product Software Engineer | Capgemini Engineering

Development of a dApp on Polygon for generating custom NFTs by combining user images with ML. Implementation of smart contracts, Node.js/Express server for internal APIs, and processing with Python/TensorFlow. Front-end with React, TypeScript, Tailwind CSS, and integration with OpenSea API.

2023 - 2024 Blockchain Developer

Development of dApps on Ethereum & Polygon for the mobility, digital assets, and lending management sectors. Implementation of Solidity smart contracts, Web3.js integration, React, TypeScript, Hardhat, and Chainlink VRF for advanced functionalities.
